- Survey 10 due Friday @ 11:59pm

- Final Exam
  - Similar to Exam 1 and Exam 2
  - Final's Week
    - Wednesday – Friday

Casting

class A {}

class C extends A {}

A aValue = new C();

C cValue = (C) aValue;

toString()

- It's often useful for us to define our own toString method on classes that we make if we want to be able to see their output
- The default toString isn't really helpful as it only shows the name of the class with the reference in it
- It's usually really helpful to be able to print out the contents of a class
