CSE 11
Accelerated Intro to Programming
Discussion Section 2

Shihua Lu, Spring 2021

This discussion is being recorded

Logistics

- Office hours: Friday 11am - 12pm or by appointment
  - https://ucsd.zoom.us/j/4815370544
- Email: s5lu@ucsd.edu
- PA1 due today at 11:59pm PST
  - Couple of open lab hours available
  - Check course website for more info
- PA2 released
  - Due next Wednesday at 11:59pm PST

Lecture recap

- Methods

  Demo in a minute

- Booleans → *describes the* <mark>*true or false*</mark> *of a statement*

  DON'T USE QUOTES

  "~~true~~" true

  1 > 2 : false
  1 < 2 : true   *>=, <=*
  1 == 2 : false
  1 != 2 : true   *and   or   not*

  operators on booleans: && || !

- Strings
  - https://docs.oracle.com/en/java/javase/15/docs/api/java.base/java/lang/String.html

    tons of methods

  string

  String

Constructor

- Similar to a method, but without a return type and a return value
- Used to create instances of a class (objects)
- A class can have multiple constructors

Thanks!
